Captures the aesthetic perfectly. The soundtrack is attractive and the gameplay is simple but actually addictive. I hope this gets rave reviews in all the magazines next month, recommended.

I wish it would run on my Windows 95.. \uff21\u0045\u0053\u0054\u0048\u0045\u0054\u0049\u0043\u0030\u0000.
\uff21\u0045\u0053\u0054\u0048\u0045\u0054\u0049\u0043 \uff2d\u0045\u004c\u004f\u0044\u0059:

-uff27uff41uff4duff45uff50uff4cuff41uff59: This is the simple formula of those "gravity" games you could find on the main page of Newgrounds, there's not much to talk about it, but some levels are super hard to play, if you're interested in difficulty but not having much to do other than flip up and down to escape from the obstacles, this is the kind of game for you, other than that, this gets boring after 10 minutes.

-uff24uff45uff53uff49uff47uff4e: This is the kind of game where you think "i want more of this, because it catches everything i love", the VHS effects, the retro sprites, the main menu, the looped background...it can't be explained how good this game on design is

-uff33uff4fuff55uff4euff44uff54uff52uff41uff43uff4b: this is completely a 10/10 soundtrack, even if it's a looping of an entire track of songs (and some doesn't start when one ends), it has the taste of 80s song all over, which not many "Retro-looking" games have, while they try as hard as they can to get the same as this game has on soundtrack, again, a 10/10

-uff30uff4cuff4fuff54: It's so simplistic, it couldn't be better, it's only a vaporwave listener that's trying to get as many remote controls so his T.V. works, that is just...brilliant.

This leads us to the end of the review, i don't know what could be added to the game, this game is totally a \ud835\udfde\u0045\u0053\u0054\u0048\u0045\u0054\u0049\u0043\u0030\u0000. T H E T R U T H. a m i d r e a m i n g ?. I absolutely LOVE this game! This is my first review on a game, but I felt like I really needed to give this game some credit. The soundtrack is amazing. The puzzles are addicting. The overall atmosphere of this game is beautiful. It's entertaining, tricky, beautiful on the eyes and ears, and just an amazing well put together game. That being said, don't purchase this if you don't like strategy games. This is a game where you need to avoid and collect things to reach the next level. Amazing game though, strongly recommend for puzzle/strategy lovers like me!. Decent. You can slip from the edge of the platform and get distracted by the yellow static in the middle of the screen, though.. Such a calming time passer. basically just vvvvvv but with a \uff56\u0041\u0050\u004f\u0052\u0057\u0041\u0056\u0045\u0041\u0045\u0053\u0054\u0048\u0045\u0054\u0049\u0043

has lots of chat emoticons and profile backgrounds tho and its pretty cheap so I guess if you want get it. this game is amazing, beautiful remake of nostalgic feeling game, i cant quite put my thumb on it, buuu its amazing, 10/10 for someone like adam, he made beautiful titles, and a game that makes me ragequit every 2 minutes but i ultimately come back because its so loveable

i do not however, like the bullets. that sh*t was annoying as hell

i ragequit through all the levels and had to take a break, but this game installed so fast and i love the achievements and community market items

10/10 would recommend to your patient family member who likes old games,

10/10 recommends to a child

10/10 recommend to someone who likes slow paced jam sessions

though it may be shoddy

its amazing

If this is the developers first full game release or some kind of school project, awesome, you completed something and that is a fantastic accomplishment. I mean that - I am not refunding, and even bought the soundtrack edition.

Edit: After a bit of research, I see this is not his first title. One thing to note is that Adam is very active in terms of support and taking suggestions. Always nice to see.

With that being said, Aesthetic Melody simply takes Terry Cavanaughs (VVVVVV) brilliant game mechanic and does it worse. The background 'movies' and music are neat, but not enough to save the crappy gameplay. I used a controller and things didn't feel tight at all. Was that what people call a 'deadzone' issue? The character would sometimes move randomly on level start.

Doesn't matter really because it wouldn't change my review. As people that read my reviews know - I value fresh games that push genres forward.

There is no story or anything to lure me in. The levels have odd names, but it all just felt 'artsy' for the sake of just that. You collect VHS tapes and then the television turns on and you can exit the level. One hit kills - and combined with not-so-great controls just made me want to turn it off.

Save your sheckels. Nice basement project as a stepping stone showing ability to complete a full-scale project to gain larger backing, but not really 'fun'..

Anywas this is a short amusing game with basic controls. The main selling points of this game is the aesthetics and music which it delivers nicely. I suggest getting this game if you like vaporwave and A E S T H I C S 4 2 0.
